FEEDBACK

Abdul Shukoor P (Lecturer in Mechanical Engg, Govt Polytechnic College Perinthalmanna)

As a parent of a JEE aspirant, I am very happy with XandY's online coaching. My son Abdul Hadi, in the Plus One Science batch at VMC Govt HSS Wandoor, has a strong interest in Physics, Chemistry, and Mathematics. We chose XandY for its excellent IIT and NIT graduate teachers and personalized mentor support. The daily follow-ups and testing platform have been instrumental in his JEE preparation, helping him stay on track. The supportive mentorship feels like a second family, keeping him motivated to achieve his goal of studying Computer Science at a top IIT. Thank you, XandY

Maheesha Riyas

Hi all, Azraa Riyas's mom here. I'm confident that choosing XandY JEE for my daughter's learning was the right decision. Since joining, she has been greatly influenced by Ajmal Sir, Shafeer Sir, and her mentor. Whenever she feels demotivated, she watches their inspirational videos or connects with mentor for support. XandY has helped her understand effective study patterns and become more focused and hardworking.

Mrs. Linu Sam

My son, Nijo George Sam, has been with XandY for almost a year, starting with the bridge course 2024. We've seen significant improvements in his lifestyle, study habits, and confidence, noticed by his school teachers and friends. The guidance from faculties like Shafeer Sir, Ajmal Sir, and his mentor has been invaluable, and as parents, we've also benefited from their support and advice

Neha VM

I'm happy to be part of the XandY family. I chose XandY for my JEE preparation based on the trust I gained during their excellent foundation course in 10th grade. The faculty, having cracked JEE themselves, provide a solid strategy for success. The personal mentorship and attention I receive have really boosted my learning. The study materials, live classes, problem-solving sessions, quizzes, and regular exams have all been extremely helpful. I especially love the JEE SPRINT feature, where I can practice solving lots of questions

Rohit Fernandez

My experience at XandY JEE Coaching Centre has been exceptional. The knowledgeable faculty simplifies complex topics, and the well-structured study materials cover the entire JEE syllabus. Regular tests and personalized feedback helped me track progress and improve. The supportive environment and focused approach boosted my confidence and preparation. I highly recommend XandY to anyone aiming for JEE success

Amna Shahanas

My experience at XandY has been incredibly positive. The teachers are outstanding, combining deep knowledge with a genuine commitment to my success, which boosts my confidence. The study materials are top-notch, and the interactive app makes learning enjoyable. The practice questions are well-designed for effective JEE preparation, and the foundational knowledge gained before 11th grade has been invaluable. The mentorship is another highlight—my mentors are always there to support me through challenges and celebrate my achievements. The trust between students and teachers creates a collaborative, encouraging environment for academic growth

Arjun K Biju

XandY JEE coaching is truly awesome! Their teachers have a remarkable ability to break down complex concepts in chemistry, physics, and math into digestible pieces. Their passion for teaching and dedication to their students are evident in every class.

Ghanashyam Pradeep

I love XandY! The teachers are amazing and keep me motivated, boosting my confidence for learning. The study materials and app are great, and the practice questions are really helpful. The foundation course has been invaluable for my JEE prep alongside 11th grade. My mentors are always supportive, and the weekly assessments, practice tests, and motivational sessions really enhance my academic growth.

WHY SHOULD YOU CHOOSE XANDY UNIVERSAL JEE PROGRAM
